The XCaliber Carbon is a podium proven competition freestyle board.

The XCaliber Carbon is the ultimate freestyle model. The XCaliber is the same model that has powered Liam Whaley to the podium at numerous championship events. The carbon properties give this board the ability to pop like no other. Its all about reflex and the carbon's ability to spring back after being loaded. This makes for a board with the ability to give your tricks the height they need and the spin weight to effortlessly rotate through them.

Comes with 40mm fins & handle.
