Freestyle surf skate inspired design. Excellent for strapless aerial tricks.

The Squid Launcher is a freestyle surf skate design made for the new era of strapless trick riding. The short and wide outline takes you from zero to planing in an instant. The same combination of length and width is perfect for taking your skate style air game into the surf. The Squid Launcher is a stealthy little creature that thrives on flat water lakes as well as it does in the ocean.

The Squid Launcher has a quad fin, swallow tail for a perfect track and release.
